DECORATED CAPS

SHRINK SLEEVE

PRINTING

OFFSET

1 to 8 printing stations + varnish
 CMYK or direct inks
 150 lpi print resolution
 Standard printing

SILKSCREEN

1 to 6 inks + varnish
 Raised inks effect
 Excellent opacity over colored tubes
 125 to 133 lpi print resolution

FLEXOGRAPHY

Higher resolution
 Photographic images - High definition
 Hybrid flexo + silkscreen printing
 175 lpi print resolution

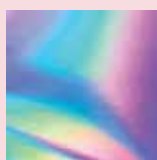

SPOT GLOSS VARNISH

Decoration process
 Raised gloss finish over specific areas
 Highlights elements within the design

HOT STAMPING

Decoration process
 Gold, Silver or Holographic foils
 Unique decorations
 Creates exclusive designs
 Gloss or semi matte finish

COLD FOIL

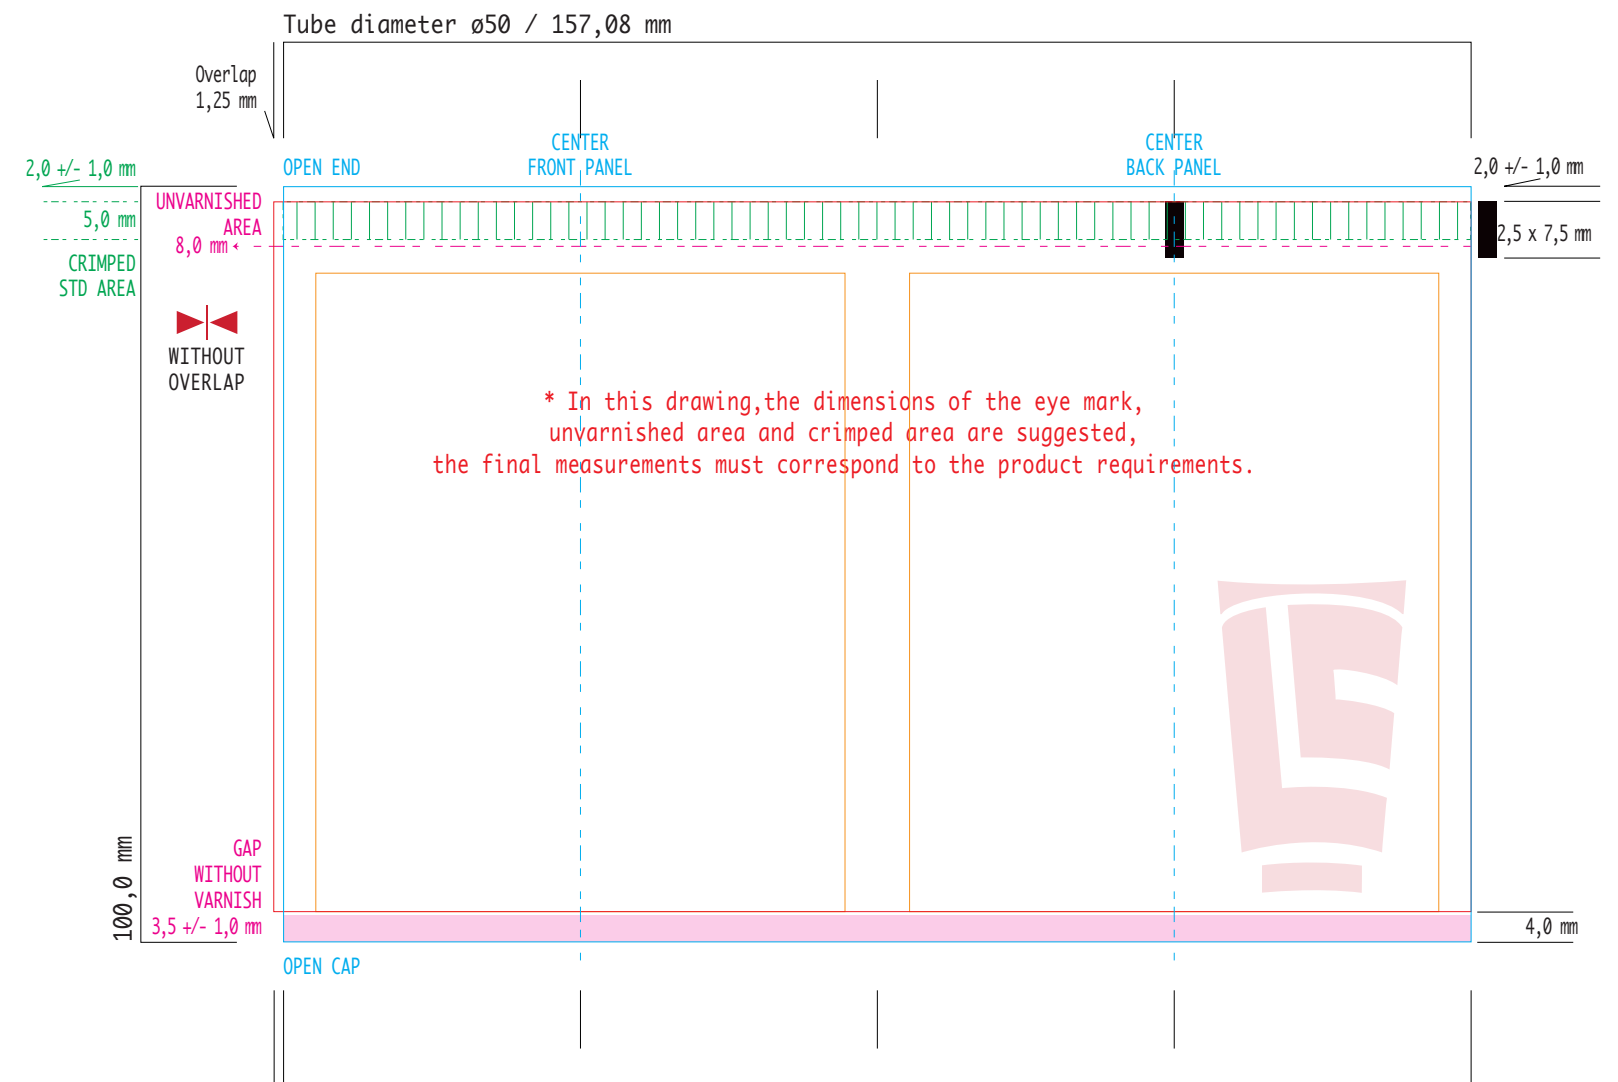

Decoration process
 Striking metallic effects without heat
 Ultra-precise design application
 Endless creative color possibilities
 Glossy or soft matte finish

FINISH

- Soft touch
- Matte finish tube
- Satin finish tube
- Glossy finish tube

ARTWORK

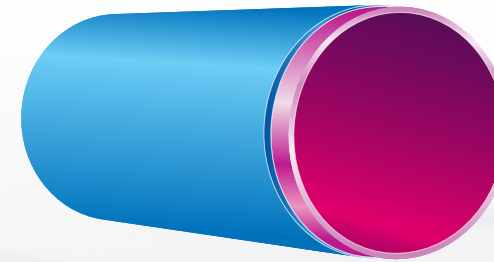

SPECIFICATIONS FOR DIGITAL ART FILES:

- Macintosh software.
- Illustration files, Adobe Illustrator (outlined/vector texts) and/or complete font folders.
- Image files, Adobe Photoshop, file extensions PSD, EPS, TIFF, 100% actual size, high resolution 300 dpi, CMYK process color model, layers, paths and direct channels.
- 8 direct inks as maximum (Pantone solid color book) + varnish finish.
- Include PDF file for proper preview of artwork file.

Please inquire in advance regarding applicability of diameter and/or printing process.

Layers

La Cazadora®

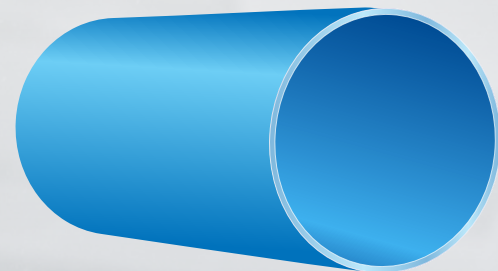

Bicolor

BICOLOR

Monolayer or Co-extruded
Manufactured with two colors, one on the inner layer and another on the outer layer.

*This structure is compatible with PCR.

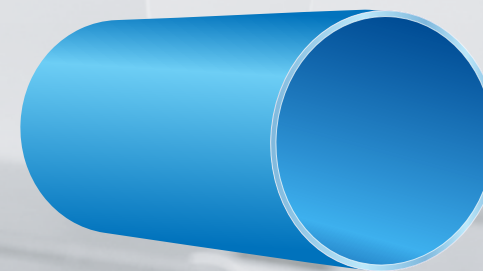

Monolayer

MONOLAYER

Composed of two layers of HDPE or LDPE.
Tube with higher permeability.

*This structure is compatible with PCR.

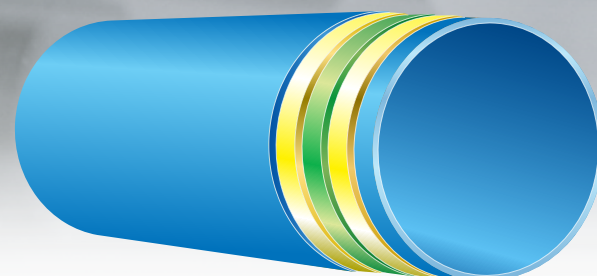

Softtouch

SOFT TOUCH

Without Varnish
Special finish with a smooth and velvety texture, achieved through a coating or the use of special materials in the outer layer.
Ergonomic, less slippery feel to the touch.

*Only available in diameters: Ø50, Ø40, and Ø35.

Co-Extruded

CO-EXTRUDED

Composed of 5 layers of different materials.
HDPE/LDPE + Adhesive + Barrier + Adhesive + HDPE/LDPE.

*This structure is compatible with PCR.

*Esta estructura es compatible con PCR.

IT IS THE BUYER'S RESPONSIBILITY TO ENSURE THE CORRECT COMPATIBILITY BETWEEN THEIR PRODUCT AND THE PACKAGING, AS WELL AS THE PROPER HANDLING, USAGE, STORAGE, AND FILLING OF THE SAME.

CRCO CHILD RESISTANT CAP

NEW

Child-Resistant Cap for Squeeze Tubes

Our child-resistant cap is designed to prevent accidental opening by children while remaining convenient for adults. It typically requires a push-and-turn or squeeze-and-turn motion to open, making it difficult for small children to access the contents.
